### SENATE COMMITTEE ON GOVERNMENT OPERATIONS, TRIBAL RELATIONS & ELECTIONS

**Staff:** Sharon Swanson (786-7447)

**Background:** The Legislature has established rate maximums and aggregate rate maximums for the individual taxing districts that derive their funding from the regular property tax. The state property tax is limited to \$3.60 per \$1,000 of assessed value. The levies of the remaining taxing districts are generally divided into two types: senior taxing districts and junior taxing districts. Senior taxing districts are cities and counties. Junior taxing districts include library districts, fire protection districts, and port districts, among others.

If the combined rates of the senior and junior taxing districts exceed \$5.90 – the rates of the junior taxing districts are reduced first and then the rates of the senior districts are reduced, according to statutorily set priorities, until the combined rates fit within the \$5.90 limit. This process is referred to as prorationing.

The following levies are outside of the \$5.90 limit, but still subject to the 1 percent constitutional limit:

- voter approved emergency medical services (EMS) taxes;
- taxes to acquire conservation futures;
- voter approved taxes for affordable housing;
- voter approved metropolitan part district taxes;
- King County ferry district taxes for passenger-only ferries; and
- voter approved county criminal justice taxes.

**Summary of Bill:** The act changes the number of voters which must approve a six-year, ten-year, or permanent EMS levy from a majority of at least three-fifths of the registered voters to a majority.
